Preface

The principal aim of this book is to disseminate to interested parties the knowledge that the undersigned has acquired. This book was written on the subject for a number of reasons.

It mostly satisfies the needs of applicants who wish to gain a thorough understanding of securities and stock market principles, along with portfolio strategies for increasing investment and yielding higher returns soon.

The fact that each Chapter is divided into multiple sections and sub-sections is another unique aspect of the book. There are headings, sections, and chapters separating the entire syllabus. Every paragraph includes a unique code that serves as a cross reference so that students can refer to the pertinent paragraph while also providing an explanation of that particular area to the class.

The information is presented throughout the book in an understandable and well-organized manner. It offers a comprehensive and analytical analysis of the subject's numerous tenets.

The content is thought to need to be very clear. Your feedback or ideas might add even more substance to the book's subject matter. The author welcomes feedback, suggestions, and critiques from readers. User feedback that is constructive will be gratefully received and suitably incorporated.

With best wishes,

-Karishma Chhablani

-Yogesh Bhusari
